

NUTRI LIFE

ACTIVATOR FOR BACTERIAL STRAINS

BIOLOGICAL ACTIVATORS

COMPOSITION

- Cane molasses and vitamins

PACKAGING

1 - 5 - 10 kg

PERMITTED IN ORGANIC FARMING

BIOAGRONOMIC CHARACTERISTICS

In NUTRI-LIFE there is cane molasses which is an excellent activator of microorganisms. It is a nourishment that gives energy to the microbiological life of the plant and the soil, greatly improving the biological and technical characteristics. There are also necessary elements such as B vitamins and organic substances that improve the life of microorganisms that increase photosynthesis and a natural resistance to the establishment of unwanted bacteria and fungi.

Product allowed in organic farming pursuant to EC Regulations 834/2007 and 889/2008. Authorization not required pursuant to Ministerial Decree no. 18345 of 27 November 2009.

It is not a fertilizer – It is not a phytopharmaceutical.

DOSES AND METHOD OF USE

Combined with ACTIVE TOP 2,5 Kg/ha foliar.

Combined with RADICAL TOP 5-10 Kg/ha radical.

Combined with TOXI TOP 2,5 Kg/ha foliar.

WARNINGS • *The product is miscible with most pesticides except products containing oils and based on copper and/or sulphur. However, it is necessary, in any case, to perform a test before application. The manufacturer is not liable for damage caused by improper use of the product.*
