

# AZZERO

PRODUCT WITH SPECIFIC ACTION  
FILTERED SOLUTION OF SEAWEED CREAM

## BIOAGRONOMIC CHARACTERISTICS

AZZERO is a mixture of algae and mineralacids of vegetable origin suitable for all types of plants, which allows the plant to accelerate its metabolism with a precise function, that of reducing the presence of chemical residues and their metabolites in the plant and in the fruit, increasing their healthiness and quality.

The product has the function of purifying and nourishing the plant, especially to reduce the presence of various heavy metals found in plants and soils.

## COMPOSITION

- Organic carbon (C) of biological origin 0.2%
- Mannitol 0,7 gr

## FORMULATION LIQUID

## PACKAGING 10 - 25 kg

## FINAL RESULT

Reduction or elimination of residues in the plant and fruit.  
Increased photosynthetic activity of the plant

## DOSES AND METHOD OF USE

Application type: FOLIAR/FLOOR

Recommended dosage:

KING SHEETS 25 kg/ha with minimum 500-600 liters of water

ON GROUND dosage from 25 to 30 kg in 400-500 liters of solution.

The product for both applications must be combined exclusively with SPECIAL ENERGY at 5 kg/ha.

**APPLICATIONS** • It is used to the needs found in the field; it is advisable to apply it with foliar spraying. It has no shortage time and leaves no residue.

**WARNINGS** • *The product is NOT miscible with most pesticides. However, it is necessary, in any case, to perform a test before application. The manufacturer is not liable for damage caused by improper use of the product.*
