

CEKITO PLUS

PRODUCT WITH SPECIFIC ACTION
FILTERED SOLUTION OF ALGAE CREAM

PERMITTED IN ORGANIC FARMING

BIOAGRONOMICAL CHARACTERISTICS

CEKITO PLUS is a physioactivator derived from a filtration at low temperatures of algae, to keep unchanged biologically active substances, such as polyphenols, vitamins, hormonal substances, amino acids etc. This innovative formulation of algae filtrate and chitosan, activates all the metabolic mechanisms of the plant, able to reactivate the immune system of plants.

CEKITO PLUS can be used in all phenological phases to:

- Promotes flowering and fruit set;
- Reduces stress from thermal changes;
- Promotes the absorption of nutrients and the functionality of pesticides;
- Increases the plant's immune system.

DOSES AND METHODS OF USE
