

KAPPA-O

PRODUCT WITH SPECIFIC ACTION
Filtered solution of algae cream

PERMITTED IN ORGANIC FARMING

BIO-AGRONOMIC PROPERTIES

KAPPA-O is an innovative fertiliser that activates the metabolic mechanisms in plants. It is obtained through an exclusive process with brown algae extracts and vitamins that activate the immune system in plants.

KAPPA-O it can be used in the phenological phases after flowering, favouring the enlargement of the fruit

KAPPA-O creates a momentary situation of nutritional imbalance that makes possible pathogenic attacks harmless, avoiding plant and fruit.
